Tank Heating Solutions

Let us help you with your sustainability goals by electrifying your fuel-fired industrial heating systems.

GIC THERMODYNAMICS offers a full line of Thermocouples and RTD's for the most demanding applications. With over 40 years of experience, our knowledgeable sales and engineering staff will work with you to develop the right sensor for your application. GIC maintains a large inventory of base materials in order to provide sensors when they are needed. We have a large inventory of Stock Sensors for same day shipping and **24 hour delivery** available on many custom assemblies. www.gicsensors.com

KECO

KECO - Precision liquid and gas analyzers
Industries include: oil & gas, petrochemical, and water treatment. Utilizing advanced technologies such as PermaStream™ membrane stripping and ASTM-compliant lead-acetate tape detection, KECO analyzers deliver accurate, real-time measurements of H₂S, CO₂, VOCs, and hydrocarbons. <https://liquidgasanalyzers.com/>

DUREX INDUSTRIES - MANUFACTURER OF CUSTOM HEATERS, SENSORS, AND CONTROL SYSTEMS

Designs, engineers, and manufactures custom industrial electric heaters built to your specifications, plus hundreds of quick-ship standard heaters in various materials, sizes, and voltages for nearly any thermal or temperature processing equipment need—including lead melt, cast-in, coil, flexible, and platen heaters.
